

lost earbud conversation internet bar bought
low received several purchase doesnt problem volume
think cheap contact started fit broke minute couldnt hold
nokia nothing comfortable worthless company dropped either great plan go hate
uncomfortable still signal completely dont waste anyone poorly put buy picture instruction weak reception
match keep people well unit junk first im disappointed screen earpiece two back cell every
even player long ear poor item make loud look return quite
new using drop didnt looking kind support device battery life horrible terrible place black software id cable big
batteryy call unfortunately difficult going waste money drain cable disappointing
week button slow clip take talk coverage piece last dont buy quality charge
thing product cant longer failed old case sound dont car year impressed money
customer service around piece junk far care
